# How to add door station to NVR for preview and record

#### Preparation

- 1. One door station and one NVR (DS-KD8102-V firmware 1.4.71 and DS-7716NI-
- E4/16P firmware 3.4.95 in this document);
- 2. Client software such as iVMS-4200 or Web.

#### Note:

- 1. NVR needs a hard disk for storage.
- Door station can't be connected to the NVR's PoE port, it can only be connected to the NVR's LAN port.

#### Step 1: Add Devices to iVMS-4200

Click **Add to Client** tab to add all devices (one door stations and one NVR) to iVMS-4200, make sure all devices are in the same local network, if not, click **Modify Netinfo** to modify it.
